

TAPER DRILL SOCKETS

ULTRA SOCKET™ SHORT SERIES

Our short series ULTRA SOCKETS™ are the finest drill sockets available. Designed for rigidity, accuracy, and versatility, they are used directly in the turret or tool holder on all CNC TURNING MACHINES. Short series sockets have 2 flats at 90 degrees which run the entire length of the shank. EDWARD ANDREWS ULTRA SOCKETS™ also feature the stepped head design for easy removal.

MADE IN THE U.S.A. OF THRU HARDENED ALLOY AND PRECISION GROUND.
